

Gerber Dental Group

STEPHEN G. BERUBE, DMD
RICHARD G. BERUBE, DMD

We hope this message finds you safe and healthy!

We wanted to reach out to let you know that you can now schedule your dental appointments, cleanings and exams which were postponed due to the COVID-19 pandemic.

As we learn more about COVID - 19 it is clear that we will coexist with this for months to come. Your health and safety are important to us. We want to provide you with the care you need in a safe way during this uneasy time.

Subsequently some changes to what was normal protocol in the past have to be made for everyone's safety .

You may have concerns about coming into a dental office at this time. Our entire staff are working hard to protect you from the moment you arrive to when you leave.

We have enhanced our office infection control procedures which were already outstanding. The normal flow of having appointments has had to adapt to COVID - 19 to keep you as safe as possible.

We will be using remote check in from your car when you arrive at the office. A staff member will meet you in the building vestibule when your appointment is ready. Temperature checks and COVID - 19 symptom checks will be done on all patients and staff before they enter the office. We have dedicated cleaners who will be circulating inside and outside the office throughout the entire day. **All patients and staff are required to wear masks.** We are limiting the number of patients in our office by restricting visitors or extra family members. **Only the patient being treated or the guardian of the patient will be allowed into the office.**

Our hours have been modified to reflect the most protection we can offer you by having all staff on at the same time. **We will begin by having appointments from 8:30am to 5:30pm Monday through Friday. No evening or Saturday appointments at this time.** We hope to return to our extended schedule at some point in the future.

If you have any questions or concerns please contact us.

We look forward to seeing you soon!

Sincerely,

Gerber Dental Group
